Council regarding police uniform purchases that had been referred to the Police and Fire Board by the City Council.

In further explanation of ordering uniforms, Chief Stragier stated that measurements are taken by Mr. Frank Baker of the Guy Woolfolk Company, then the order is submitted to the Purchasing Director for approval, and then he submits the blanket order form to the company.

January 14, 1964

Honorable Members of the

Police and Fire Board

Gentlemen:

I would like to call your attention to the letter of Mr. Lloyd Head, City Purchasing Agent, under date of December 10, 1963, directed to the Mayor and Members of the City Council, concerning the purchase of police officers' uniforms. Mr. Head suggests that should the Council desire, his office will issue specifications for these uniforms, and request competitive bids be taken, in order to establish a single source for the next five year periods.

I should like to point out that the Guy Woolfolk Company has been supplying our uniforms, with certain specifications, for several years, and that because of these specifications and quality requirements, to say nothing of the matter of uniformity, it would not be feasible to submit these uniforms for open bids. It is also important to call to your attention that these uniforms can not be purchased locally, and that our local tailors have not chosen to submit bids in the past, after having been supplied our uniform specifications.

It is my sincere recommendation that we continue to purchase our uniforms from the Guy Woolfolk Company.

Respectfully submitted,

CHARLES STRAGIER,  
Chief of Police.

By Commissioner Forsythe—

I move we refer this recommendation to the City Council.

Supported by Commissioner Lanning.

Carried.

## Proceedings, February 21, 1964

Lansing, Michigan  
Retirement Board Room  
8th Floor, City Hall  
1:00 O'Clock P.M.

The Board of Trustees met in special session and was called to order by Chairman Jack Cushman.

Present: Trustees Cushman, Dunn, Graves, Jackson, Keast, Ryan—6.

Absent — Trustees Bowerman, Dean, Seelye—3.

Present: Gerald J. Lonergan, Secretary;  
Dr. Robert C. June, Medical Director;  
Percy G. LaLonde, Duty Disability Pensioner.

Meeting was called by Chairman Jack Cushman to meet with Dr. June regarding the request of Mr. LaLonde to be returned to active duty instead of changing over to Service Retirement at age 55 effective February 22, 1964.

The following report was received from the Medical Director, Dr. Robert C. June:

February 20, 1964

Mr. Gerald Lonergan  
Police and Firemen Retirement Board  
Lansing, Michigan

Re: Percy G. LaLonde  
Age 54

Dear Mr. Lonergan:

Mr. LaLonde was seen in my office on February 20, 1964 at your request for report to the Police and Firemen's Retirement Board. He gives a history of having had a heart attack in October 1960.

Physical examination at this time reveals a well developed, well nourished white male whose height is six feet and his weight is 258½ pounds. His pulse rate was 81 at rest, a 112 after exercise and had returned to 81 two minutes after exercise. The initial blood pressure was

160/92, a repeat blood pressure five minutes later was 160/96. There was more dyspnea than would be expected with this amount of exercise. Examination of the heart did not reveal any enlargement, there was however, grade one systolic murmur at the point of maximum intensity that disappears with breath holding. An electrocardiogram was done at this time and this merely reaffirms the findings as stated in the previous letters. There is no evidence of new injury. I reviewed the letters of the attending physician at the time of his original illness in 1960 and quote as follows:

Dr. Nakfoor stated on December 15, 1960 as far as his future work was concerned, he felt that Mr. LaLonde definitely should not return to active status with the fire fighting unit. He stated that he felt he could do sedentary work if it does not involve emotional tension. Dr. Nakfoor has in essence repeated this same statement in a letter February 14, 1964. He further presented a letter from a doctor John T. O'Connor in which Dr. O'Connor stated, "It is my opinion Mr. LaLonde is quite capable of employment." After careful consideration of this man's problems, his physical condition and noting especially the marked increase in weight that he has taken on and realizing the effect that this weight problem will have on his heart, I would make the following recommendations: Mr. LaLonde in so far as my evaluation is concerned capable of sedentary work to which there is no great amount of tension or stress attached. Whether or not this type of work exists in the Fire Department I do not know. If such a position is available for him I would agree and recommend he could return to work provided that he take off 50 pounds of weight and that he agreed to keep his weight down to 200 pounds.

It also would have to be firmly established ahead of time that a definite duty assignment would be made and reviewed by the medical director and that no duty assignment would be changed without prior approval by the medical director.

If I may be of further assistance, please advise.

Sincerely,

ROBERT C. JUNE, M.D.

Also the following report was received from Eugene C. Nakfoor, M.D.

February 14, 1964

To Whom It May Concern:

Percy LaLonde as you know, was hospitalized from October 13, 1960 to October 31, 1960 with a diagnosis of acute coronary occlusion. He made a complete and uncomplicated recovery. He did experience anginal pain for several months, but he has not had a pain for the past six months.

I feel that he is able to return to work, if the work does not involve a great deal of emotional or physical strain.

Sincerely yours,

EUGENE C. NAKFOOR, M.D.

The following action was taken by the Board of Trustees:

By Trustee Ryan:

Resolved by the Board of Trustees of the Policemens and Firemens Retirement System that Mr. LaLonde's request to be returned to active duty be denied in view of the report of the Medical Director and the absence of any sedentary positions within the department.

### ROLL CALL

Present: Commissioners Ames, Johnson, Anderton, Lanning, Shewell, Forsythe and Dunn—7.

Absent: Commissioner Smith—1.

Commissioner Smith was excused from the meeting.

Mayor Willard I. Bowerman Jr. was present at the meeting.

The minutes of the previous meeting were approved as printed.

March 10, 1964

Members of the Police and Fire Board

Gentlemen:

Pursuant to a request from Mayor Willard Bowerman, we directed letters to numerous cities to determine whether they employ meter maids; and if so, requested any comments they might wish to make as to their effectiveness.

### COMMUNICATIONS

The Board received a letter from N. D. Henderson, Secretary of the Ingham County Medical Society, relative to the use of sound and motion pictures in dealing with persons driving under the influence of alcohol.

Received and place on file.

Chief Stragier presented a request from Richard Hinman for permission to negotiate a settlement with Auto Owners Insurance Company regarding an accident that occurred while he was on duty November 12, 1962.

By Commissioner Ames—

I move we refer this request to the City Attorney.

Supported by Commissioner Lanning.

Carried.

Chief Stragier presented a request from Police Matron Jennie Peterson for a three weeks leave of absence from March 22 until April 15, 1964 due to illness.

By Commissioner Lanning—

We received seven (7) letters in reply. The pros and cons as to their usefulness were about evenly divided. Those cities having the longest experience with a meter maid program; namely Waco, Texas and New Orleans, Louisiana are in the process of eliminating them completely. Waco has only two remaining, and New Orleans with an original complement of 34 is down to 14 (they state that by fall they will no longer have any). Lawton, Oklahoma, has had this program since 1958, and are completely dissatisfied. They state there is a high rate of absenteeism, and they do not work during inclement weather.

Saginaw and Flint, Michigan, have only just started their programs, and stated they could not give us an evaluation at this time. Saginaw is the only city whose program uses motorized equipment and it consists of Willys Jeeps. In many cities, the meter maid program is not under the supervision of the Police Department.

However, authorities in Jackson, Michigan report they are satisfied with their meter maid program.

Respectfully yours,

CHARLES STRAGIER,  
Chief of Police.

A discussion was held regarding the feasibility of a meter maid program in Lansing. Chief Stragier stated that he needed officers on the main avenues of downtown Lansing, so meter maids could not replace officers in this area. A further study, with the probability of placing the meter maid program under the supervision of another city department, such as the City Treasurer was recommended by Commissioner Johnson.

Referred to Chief Stragier and the Men and Discipline Committee.

The Board received a notification from City Attorney Donald Reisig that a check from the Badger Mutual Insurance Company for \$1,176.15 for reimbursement of Workmens Compensation for Officer James Conklin had been submitted to Controller Gerald Lonergan March 3, 1964.

Received and placed on file.

the educational program they are sponsoring in the schools during National Police Week and expressed its appreciation for the dedicated service these dedicated men and women render to the citizens of this city.

Received and placed on file.

Chief Keenoy presented a letter from Commissioner A. E. Vallier of Plymouth, Michigan requesting consideration for the purchase of the 1941 Seagrave 65 ft. aerial ladder truck to the City of Plymouth for \$7,500.00.

By Commissioner Shewell—

I move we refer this request to the Apparatus Committee and Chief Keenoy, and their recommendations be returned to the Board.

Supported by Commissioner Lanning.

Carried.

The Lansing City Council referred a letter from Gary Thomas, President of the Lansing Fire Fighters Local 421, to the Board, requesting the Council and Board to conduct a feasibility study for a 40 hour work week for firemen.

A discussion was held by members of the Board relative to the 40 hour work week and "moonlighting" by firemen under the present work hours. Chief Keenoy stated that he did not advocate the 40 hour week, and that he had not received complaints from any of the unions regarding infringement by firemen. He took exception to the statement in the letter that the 40 hour week would provide better fire protection to the city, and stated that the command officers with years of fire fighting experience were far better qualified to evaluate fire protection than a member with a limited amount of service. Chief Keenoy stated that the three platoon system originally placed in effect by the Board was the most efficient system in effect in the department since the granting of "kelly" days.

Commissioner Dunn presented the following request to the Board.

Since the Lansing Firemen recently requested through the Lansing Fire Fighters Association a 40 hours work week to the City Council, I have been trying to search out some solutions which would be beneficial and fair to both the Lansing Taxpayers and the Lansing Firemen. Therefore, I would like to have some answers to these questions for evaluation purposes:

1. Is the 40 hours work week to be completed in one 40 hours of continuous duty?

2. Is the 40 hours work week to be 24 hours during one work day plus the balance of the 16 hours at another day during the week?
3. Is the 40 hours work week to be 8 hours each day, 5 days a week?
4. Is this 40 hours work week practical and will it keep up the efficiency of our fire protection?
5. Is this reduction from the present 56 hours work week to a 40 hours work week in reality an increase in the Firemens wages?
6. Should we reduce the Firemens' pay since the request is for a 40 hours work week from the present 56 hours work week?
7. How many new men will we need for a change from our present 56 hours work week to a 40 hours work week?
8. How much additional money will it cost the Lansing Taxpayers for this 40 hours work week?

I would like these questions evaluated by the City Controller with the Personnel Department and Fire Chief Keenoy and return to the Board with recommendations and the cost of this 40 hours work week by the April 1964 monthly meeting.

By Commissioner Ames—

I move we approve the request as presented by Commissioner Dunn.

Supported by Commissioner Lanning.

Carried.

#### REPORTS OF OFFICERS

Chief Stragier reported that two members of his department were off duty due to illness, and that all officers had completed a one week training course. He requested a Men and Discipline Committee meeting March 18th to review applicants and recommend promotions.

Chief Keenoy reported that three members were on sick leave, and two automobiles were involved in minor accidents. Two members of the department attended the Arson Seminar at Ann Arbor, Michigan and commended the members of the department for the fine fire fighting jobs at two large fires recently.

Civil Defense Director James Holcomb reported that two stations used as shelters had been stockpiled.

The Board adjourned.

By Commissioner Shewell—

WHEREAS, Lansing Municipal Government is composed of various boards and commissions whose membership comprises scores of Lansing citizens serving without pay; and

WHEREAS, these citizens as intended by the Lansing City Charter serve as governing policy boards over respective departments of City Government; and

WHEREAS, it is imperative that these citizen boards continue to maintain control over Municipal Government;

THEREFORE, BE IT RESOLVED, that the members of the Police and Fire Board of Lansing go on record as being unilaterally opposed to suggested changes in the City Charter as outlined in Proposals No. 4 and No. 5.

It is our reasoning that Proposal No. 5, which would place the Police and Fire Departments under separate boards (they are presently under one) is wholly unnecessary and could seriously affect the efficiency of the City's two outstanding and vital emergency services.

This Board also fears that Proposal No. 4, which aims at establishing a Career Personnel Merit System (Civil Service System) for Municipal Government, will strip this and other City Boards and Commissions of their present authority under the City Charter to set policy to hire, fire, promote, demote, suspend, and regulate employees under their jurisdiction and place this authority under a single and possibly politically influenced Commission.

The Lansing City Charter created the Police and Fire Board and other citizen dominated boards with the intended and specific purpose to: (a) serve as the direct, non-political representative of the people and tax payers; and, (b) conduct City Departments under their jurisdiction as economically and efficiently as possible without regard for political implications or influences, and to carry on continuity of Municipal Government regardless of shifting turnovers in the elective political branches of Lansing Government.

We, therefore, urge the citizens of Lan-

sing to vote No against Proposals No. 4 and No. 5.

By Comm. Lanning—

Be it resolved that the members of the Police and Fire Board, extend its sincere, deepest sympathy to Chief Marchus Keenoy in the loss of his father.

Chairman Anderton requested that the following be read:

By Commissioner Anderton—

We who recognize the need for consistency throughout all of the police profession in the adherence to high professional standards, especially in police leadership, are confounded when an appointive authority, holding office through political fortune, can name individuals of incompetence or otherwise of undeserving character to police leadership.

The problem of separation of police efficiency and progress from the unhappy effects of political whim must be universally overcome before it can be assumed that professional standards in police service are permanently established. Any achievement toward a better status which we may see accomplished now or in the future must carry the guarantee that political affiliation shall never enter into any Police Department so as to bring the ultimate fall from the professional quality.

The effects of political invasion upon the police province are many and disastrous. Too many police chiefs have had to witness the deterioration of discipline within the ranks, inspired by the inefficiency of officers politically appointed.

Let me make one point clear: I believe in politics and the political system we have in our country, and I believe in the value of a competitive party system. That is part of the great basis of successful government—free assembly, free discussion, free voting, and government by consent and with the active help of the governed. But, in certain fields of government, the men who carry out the duties must be free of partisan politics and political pressures, which are certain to be governed largely by the intense and natural desire of political leaders to profit by the last triumph and to win the next election. Police work is a career, and from the Chief of Police to the lowest recruit on the beat, the work must

be free of political pressure aimed at any party benefit. The policeman of today is a professional man, and will devote his life to this career. If he is to render to this community the services that are expected of him, he must be free of all political encumbrances.

Police service will always be less than its greatest potential so long as the heavy millstone of political intrusion is permitted to weigh down law enforcement progress.

At this time Commissioner Dunn reported that he had received information from Motorola, Inc. as to the cost estimate of changing our present communications system over to micro-wave system, similar to that presently used by the Michigan State Police, and other departments throughout the state. This change-over was projected in the Capitol Improvement Plan, submitted to the Planning Commission last year.

Commissioner Dunn at this time presented

the State Flag to Chairman Anderton on behalf of Mr. Lawrence J. LaLone, Executive Secretary, of the State Veterans Trust Fund—Board of Trustees.

Chairman Anderton expressed the sincere appreciation of the board members in accepting this gift.

He expressed his disappointment in the department's command officers' opposition to the 40 hr. work week, and stated the board is the group who originally suggested the 40 hour week. He further stated that the Lansing Fire Fighters Local 421 intention is to continue to request that a feasibility study be conducted for a 40 hour work week for firemen.

Received and placed on file.

Chief Stragier presented a communication from Personnel Director D. J. Bodwin relative to requested merit increases in salary for four members of the police department. The requests could not be complied with because they represent a departure from the City Classified and Compensation Plan, and the requests conflict with a prior communication addressed to the Board by the Chairman of the City Council Personnel Committee. The Personnel Director is holding the request in abeyance until such time as the Classification and Compensation Plan is amended.

Received and placed on file.

Chief Stragier presented a check from Mr. J. Wm. Couch in the amount of \$25.00 for the Police Relief Association.

November 3, 1964

Police and Fire Board

Lansing, Michigan

Gentlemen:

Your Apparatus Committee met with Chief Keenoy and Master Mechanic Idus Burgess of the fire department regarding a functional damage to the engine of No. 1 Aerial Ladder. This ladder is to be replaced by the new 100 ft. aerial ladder that is now on order and is scheduled for delivery in March of 1965.

The damaged engine can be repaired at an estimated cost of over \$3,000.00 and several days of repair work by members of the Police and Fire Garage. A conservative estimate of time needed to place this apparatus back in service is 40 days, due to the length of time to secure a new block and to rebuild the engine. The apparatus was acquired in October of 1938, and at the present time is being replaced by our 85 ft. aerial ladder from No. 8 Station (our 65 ft. reserve aerial ladder is replacing the 85 ft. aerial ladder at No. 8 Station). Since all other apparatus now is equipped with small lines, the defective water tank on No. 1 Ladder has not been repaired or replaced in anticipation of replacement by the new 100 ft. aerial ladder.

The main function of this apparatus is to supply aerial ladder and accessory equipment for the central area. Master Mechanic Burgess has indicated this is still possible with the ladder truck in its present condition to a range of six or eight blocks. This service would be required only in a sever emergency, and in this case other equipment would be available through local construction groups, adjacent fire departments and civil defense emergency services. Our 85 ft. aerial replacing this 100 ft. aerial in this area will be sufficient for ordinary calls.

The Seagrave Corporation has informed Chief Keenoy, by confirming letter, that delivery cannot be made ahead of schedule although they will make every effort to expedite delivery at the earliest possible date.

We recommend that No. 1 Ladder Truck be kept in limited reserve at No. 1 Station pending the arrival of the new ladder truck, and the 85 ft. aerial ladder be stationed at Central Station to supply protection for the downtown area.

Apparatus Committee,

A. F. SCHMIDT, JR.,  
J. M. MALONEY,  
C. E. FORSYTHE,

By Commissioner Schmidt—

I move the Committee Report be adopted.

Supported by Commissioner Forsythe.

Carried.
